

Policy Title: CMLTO BOARD EFFECTIVENESS EVALUATION POLICY		Policy Section: IV Governance Process		Policy Number: IV-70
Approved By: Board of Directors	Date Approved: May 3, 2007	Date Reviewed/ Revised:		Board Chair's Signature: 
		Sept 15, 2009 Sept 21, 2012 Sept 15, 2015 Sept 25, 2017 Sept 17, 2019	Dec 3, 2021 May 28, 2024 (Spec. Rev) Sept 23, 2024	

BACKGROUND

The public expects the CMLTO Board to achieve its mandate. The Board believes that it is a major responsibility to govern with excellence, integrity, and equity and holds itself accountable. This self-discipline applies to attendance, preparation for meetings, policy-making principles, careholdership linkage, effective monitoring of the Registrar & CEO, respect of roles, fulfilling the Board's role description and ensuring the continuity of governance excellence.

The Board creates Governance Process and Board-CEO Relationship Policies in order to guide the Board in its work, processes, and mandate based on its governance philosophy and approach. The Board recognizes that effective governance can both substantially leverage the organization's achievement of its results (Ends/Critical Outcomes) and its accountability for doing this within ethical, prudent, and just means. Further, poor governance ultimately costs CMLTO much more than does allocating resources to support the Board in learning to and governing well. The Board as a whole and individual Board Members will invest resources to enhance their understanding and ongoing implementation of governance excellence. Further, the Board recognizes that in order to do so, it needs an ongoing plan for Board effectiveness evaluation and continuous Board learning and development.

POLICY PURPOSE

This policy is designed to outline the Board's commitment to Board effectiveness evaluation and the ongoing processes the Board has established to ensure that governance effectiveness evaluation and related continuous improvement are undertaken.

POLICY

Given these beliefs, the Board will assess its effectiveness using seven (7) primary strategies including:

1. Monitoring Compliance/Achievement of Board Policies

- Regular ongoing monitoring of compliance/achievement of both Governance Process and Board-CEO Relationship Policies, which are policies that instruct/guide the Board's ethics, prudence, equity, and processes.
- Usually conducted at three (3) Board meetings per year (including 2nd, 3rd, and 4th Board meetings in the year).
- Not all Governance Process and Board-CEO Relationship Policies are monitored through this process; some are monitored through the annual Board Effectiveness Self Evaluation – See Appendix 1.

2. Board Effectiveness Self-Evaluation

- An annual self-reflection against key governing criteria (as described in all four (4) policy sections of the Board Policy Set – particularly Governance Process Policies and Board-CEO Relationship Policies) to provide a profile of the Board's overall effectiveness/performance.
- This self-assessment includes evaluation of the Board's progress and pressing forward values and practices related to equity, diversity, inclusion, and justice (EDIJ) and the evaluation of the Boards's practice of ensuring its decisions align with its commitment to intentionally and transparently evaluate the impact of its decisions on the protection of the public interest.
- This includes self-evaluation of the Board as a whole, individual Board Members, and Board and Statutory Committees.

3. External Evaluation of Board Effectiveness

- The Board will undertake an external evaluation of the Board's effectiveness every three (3) years.
- The external evaluation will be independent of CMLTO staff and consultants.
- Identification of an organization which will conduct the evaluation, and management of the evaluation processes will be performed by the Executive Committee on behalf of the Board.

4. Board Meeting Assessment

- The Board will assess two Board meetings annually in order to determine Board meeting engagement and effectiveness. One Board meeting evaluation is conducted by all Board Members and one meeting is evaluated by a Board Meeting Monitor and discussed by full Board.

5. Integrated Board Strategic Agenda/Work Plan Tracking

- The Board monitors its progress throughout the year on accomplishing its own work plan.

6. Board Governance Scorecard

- The Board has designed a scorecard of critical governance processes and outcomes indicators which it tracks quarterly and overall annually.
- The Board periodically updates its scorecard indicators.

- The Board reports some of its relevant indicators to the public.
7. Annual Board Member Profile of Governance and Professional Experience
- This profile will be prepared for the Executive Committee for the purpose of Board Member assignments to Statutory Committees in the following year.

The Board will use the information and learning gained from all of these evaluations to:

1. Compare to earlier evaluation results to measure progress and improvement, and
2. Develop action plans to enhance the Board's governance effectiveness including plans for Board learning and development.

Resulting action plans will be incorporated in the Annual Integrated Board Strategic Agenda/Work Plan.

Further Information Regarding Board Evaluation Strategy 1 - Monitoring Achievement of Governing Process and Board-CEO Relationship Policies

The purpose of monitoring the Board's Governance Process and Board-CEO Relationship policies is to determine the degree to which the Board is complying with and achieving its own policies. Monitoring will be as automatic as possible, using Board time effectively, so that meetings can be used to create the future rather than spending too much time reviewing past Board performance.

These policies are monitored through Board self-assessment performed by individual Board Members or a small group of Board Members and discussed by the whole Board. Usually, each Monitoring Report on Board compliance with its own policies will be completed by the relevant Policy Champion and one other Board Member randomly assigned.

The Board Member preparing the Monitoring Report will provide a written summary of the Board's current interpretation of the policy, the verifiable evidence that the policy is being complied with or achieved, any areas of concern, and an overall conclusion (see Appendix 3 - Monitoring Worksheet/Report: Evaluation of Board Compliance With [insert policy name]).

Note: The policy marked by an asterisk (*) may not be monitored by the Board Chair or other officer.

The Board will evaluate whether the interpretation of the policy is reasonable and whether the Board is complying with/achieving its own policies.
